

Alumni Talks is the voice of students. It is the voice of change.

This event was organized by Sydenham Alumni Cell to form a bridge between the students and the Alumni, while creating a platform for interaction.

We connect to prominent alumni to learn from their vast experience and extensive knowledge.

Learning can no longer be divided into a place and time to acquire knowledge, and to give exposure to the the students, the cell organized an online live session on YouTube on 20th September.

The Speaker was Mr. Dilip Piramal, Chairman of VIP Industries, one of the leading industrialist and business tycoon in our country. The event was given due recognition by media houses and the viewers as it enabled people to learn something beyond textbooks. The Program also consisted of Rapid Fire round which added to the fun factor. The audience was also entitled to E-Certificates signed by Mr. Dilip Piramal for attending this Leadership Training.

With flooding positive feedbacks, the Cell looks forward to the upcoming sessions.
