

7.1.4 Water Conservation

**7.1.4 Water conservation facilities available in the Institution: Rain water harvesting
Bore-well /Open well recharge Construction of tanks and bunds Waste water recycling
Maintenance of water bodies and distribution system in the campus**

In order to augment water supply, Sydenham College has constructed tanks at the backside of the college and 15 water tanks are placed in the terrace of the premises to conserve and distribute water in the campus. College adopt adequate measures to reduce water wastage. Posters and notices to save water are displayed in the campus. NSS and SSL unit undertake various water conservation awareness program inside and outside the campus
